Grant conditions

PackUK as the Scheme Administrator has decided how funding will be given to local authorities to help cover the costs of managing household packaging waste.

Why this grant is being given

The legal purpose of this funding is to cover your “chargeable disposal costs” as defined in the Producer Responsibility Obligations (Packaging and Packaging Waste) Regulations 2024 (the Regulations), i.e. net efficient costs incurred in the efficient management of household packaging waste. Under regulation 80 of the Regulations, PackUK may recalculate chargeable disposal costs and will take into account information relating to the efficient disposal costs of the local authority (LA) for the assessment. Recalculations may therefore be applied if PackUK receives evidence that this funding has been allocated for other purposes.

Recalculation notices can be sent up to four years after the end of the assessment year and where chargeable disposal costs are re-calculated as being lower than previously calculated, this may result in a reduction in funding in a future year.

Who will receive the funding

A list of the local authorities and the amounts they will receive is provided in Annex A of your notice of assessment

How the funding will be paid

PackUK will pay the grants directly to the listed authorities.

Legal basis

Local authorities must ensure that robust arrangements are in place to manage fraud risk, including ensuring that project deliverers have a robust fraud risk management process and pay particular attention to projects that involve the payment of grants to beneficiaries e.g. businesses.

Local authorities are expected to ensure that all legal and other statutory obligations and consents will be adhered to, which may include, but not solely, state aid / subsidy control, equalities duties, procurement, health and safety, and fraud prevention.

Local authorities have prerogatives to establish internal governance and assurance arrangements as they see fit to achieve this.

Local authorities will ensure data can be shared for the prevention and detection of fraud by including the following clause in all agreements with companies or external entities: “Data may be shared with other public bodies and enforcement agencies for the prevention, detection and investigation of fraud.”

Yours sincerely,

PackUK
